

Website update information

1. INTRODUCTION

The department of Pharmacology, Government Medical College, Nanded was established on 17th January 1988. The Medical council of India recognized this department for undergraduate courses first time in 1994. The annual intake capacity of undergraduates is 150 students from Academic year 2019.

Post graduate MD Pharmacology course has been started since 2010 with 2 seats per year subsequently medical council of India inspected this department for postgraduate courses in July 2017 and recognized these seats. The annual intake capacity of postgraduates was increased from 02 to 05 since 2020.

Department of Pharmacology is significantly contributing to undergraduate and postgraduate teaching and research. We are also having functional Adverse Drug Reaction Monitoring Centre, under the Pharmacovigilance Programme of India (PvPI). Department of Pharmacology also contribute to Hospital services like procurement, storage and distribution of drugs.

2. MISSION

The broad goal of teaching pharmacology to the undergraduate student's is to apply basic principles of pharmacology and therapeutics and to inculcate a rational and scientific basis of therapeutics in line with CBME course. While the overall goal of post-graduate pharmacology training is to acquire knowledge, skills and attitude that will enable the students to function as an academician and as a research scientist or adviser in academic, research, corporate or administrative setup.

3. VISION: Future projects to be undertaken

- A state-of-the-art pharmacogenomics lab
- To make our institute as a WHO Collaborating Centre for Training and Research in Essential Medicines and Rational Use.
- To establish a CAL laboratory for UG and PG students.
- To establish a Clinical Pharmacology Unit (CPU).
- Expansion of Drug information centre to regional level
- To establish Therapeutic Drug Monitoring Centre
- To conduct regional Pharmacology conference / workshop

4. Functions and objectives:

i. Functions:

- Teaching competency-based learning for undergraduate students.
- Teaching pharmacology to the undergraduate students.
- To train Post graduate student to function as an academician and as a research scientist or adviser in academic, research, corporate or administrative setup.
- Appreciate rationale for different therapeutic modalities, be familiar with administration of essential drugs and their common side effects.
- Possess the attitude for continued self-learning and to seek further exercise or to pursue research in any chosen area of medicine, action research and documentation skills.

ii. Objectives:

- To make MBBS Students clinicians, leaders, communicator, lifelong learner and professional in health care system.
- To create Indian Medical Graduate possessing requisite knowledge, skill, attitude, values, and responsiveness so that he/she may function appropriately and effectively as a doctor of first contact of community while being globally relevant.
- To develop scientific temper, acquire educational experience for proficiency in profession and promote healthy living.
- To implement attitude, ethics, and communication module in all medical students.

Senior Resident students are as follows: -

Sr.No	Name of Senior Resident	Photo
1	Dr. Jincy Sam (MBBS, MD Pharmacology) Working in this department as Senior Resident since 28/04/2026.	

The post-graduate students are as follows: -

Junior Resident 3

1. Dr. M. Salguna Sambhannan Vivek
2. Dr. Shivam Kanshette
3. Dr. Kiran Basre
4. Dr. Rushikesh Dhamale
5. Dr. Pratiksha Ebitdar

Junior Resident 2

1. Dr. Manoj Bhandare
2. Dr. Shardul Shinde
3. Dr. Dipalee Karwande
4. Dr. Maithilee Kadam
5. Dr. Janhavi Yadav

Junior Resident 1

1. Dr. Saifullaha Hulkoti
2. Dr. Ashish Kadam
3. Dr. Vishal Waghmare
4. Dr. Ganesh Sakrudkar
